

Walter Frias

Full Stack Developer | Applied AI | Web3

Buenos Aires, Argentina | walter.frias.dev@gmail.com | +54 9 11 3486 3363
walterfrias.dev | github.com/walterfrias | linkedin.com/in/walter-frias-61b03244

SUMMARY

Full Stack Developer who ships complete products, from database and API design to frontend and deployment. I built and run Comanda, a multi-tenant SaaS used daily in a real restaurant, and I integrate LLM APIs into real products (Claude API: streaming, prompt caching, grounded system prompts). Also experienced in Web3, with a 1st-place Ethereum hackathon win. Background in visual arts and 9+ years of team leadership bring a product and business perspective to engineering decisions.

TECHNICAL SKILLS

Languages:	Python, TypeScript, JavaScript
Backend:	Django, Django REST Framework, Flask, Node.js, Express.js, NestJS
Frontend:	React, Next.js, Vite.js, Angular, Astro, Tailwind CSS, HTML, CSS
AI & LLMs:	Claude API (streaming, prompt caching, system prompts), MCP, Claude Code
Databases:	PostgreSQL, MySQL, Firebase
DevOps & OS:	Docker, Linux (shell scripting), Git / GitHub, Vercel, Render
Blockchain:	Solidity, Hardhat, Scaffold-ETH, Viem, Wagmi, ERC20 / ERC721

PROJECTS

Comanda - Restaurant Management SaaS (In Production)

Django REST Framework / PostgreSQL / React / TypeScript / PWA / React Native / Expo

- Built a multi-tenant SaaS for restaurant operations, used daily in a real restaurant, with 7 role-based views.
 - Recipe costs and margins recalculate automatically when supplier prices change, across 8 unit types.
 - Includes stock counts, supplier orders via WhatsApp, and daily cash and monthly cost reports; native mobile app in progress.
- <https://www.comanda.com.ar/>

Personal Portfolio with AI Chat Assistant

Astro / React / TypeScript / Tailwind CSS / Claude API / Vercel

- AI chat assistant that answers recruiters' questions, grounded only on my profile data to avoid invented claims.
 - Server-side Claude API integration with streamed responses and prompt caching of the system prompt to cut latency and cost.
- <https://walterfrias.dev>

CooperaApp - SaaS for School Cooperatives

Django REST Framework / React / TypeScript / Vite / PostgreSQL / Docker / Solidity

- Built a multi-tenant SaaS platform for Argentine school cooperatives with 6-role RBAC, subscription lifecycle management and path-based tenant routing.
 - Integrated a Solidity Factory contract (Base Sepolia) that deploys an individual DAO with its own ERC-20 COOP token per school; token minted automatically on each payment.
- <https://cooperadora-escuela-27.vercel.app/>

DAO - Ethereum Hackathon (1st Place)

Solidity / Hardhat / Scaffold-ETH / Next.js / TypeScript

- Won 1st place at ETH KIPU Latam 2024 hackathon building a consortium management DAO.
 - Implemented on-chain voting, proposal creation and fund management contracts in Solidity.
- <https://hackatonbuildingdao.vercel.app/>

Project Management System - Fullstack

Angular / NestJS / TypeScript / PostgreSQL / Docker

- Built a fullstack project management app with role-based access (Admin/Operator), Kanban board, advanced filtering, pagination and CSV export.
- Designed REST API with NestJS covering projects, clients, tasks and user assignments; containerized with Docker.
<https://integrador-des-app-web.vercel.app/>

ERC-20 Token Swap Pool

Solidity / Hardhat / TypeScript / React / Vite / Tailwind / Wagmi

- Implemented ERC-20 liquidity pool with deposit, withdrawal and swap logic in Solidity from scratch.
- Connected on-chain contract calls to a React frontend via Wagmi; deployed on Sepolia testnet.
<https://swaperc20.netlify.app/>

E-Commerce Platform (B2C)

Node.js / Express / Firebase / JavaScript / React / Vite / Tailwind

- Developed a complete B2C e-commerce platform with product catalog, shopping cart and checkout flow.
- Built a decoupled REST API with Node.js and Express, persisted with Firebase, deployed on Render.

PROFESSIONAL EXPERIENCE

General Manager | Private Business, Buenos Aires | 2016 - Present

- Led and managed a team of up to 10 people in daily operations.
- Optimized operational processes and resolved high-pressure situations.
- Developed strong skills in communication, conflict resolution, and team coordination.

EDUCATION & CERTIFICATIONS

Universidad Nacional de Entre Rios (UNER)

B.Tech in Web Development | 2024 - Present

ETH KIPU Latam

Ethereum Developer Pack | 2024 - on-chain certificate

Talento Tech - Buenos Aires Ministry of Education

Node.js & React.js | 2025 - certified

Codo a Codo - Buenos Aires Ministry of Education

Full Stack Python + Django specialization | 2022-2023 - certified

ISFA Manuel Belgrano

National Teaching Degree in Visual Arts | 2018-2024

ProCp

Ontological Leadership Coaching | 2018

LANGUAGES

Spanish - Native | English - Intermediate (actively improving, private lessons 2025)
